SPT-25 Vibration Counting Machine

INTRODUCTION

It is mainly applicable to pharmaceutical, chemical, food and other industries. It is electromechanical integrated counting equipment for accurate counting and filling of products such as tablets, pills, and capsules. Through the automatic counting and filling of products, it greatly improves the productivity and avoids the artificial pollution caused by manual counting and filling. The machine can be used independently, but also with the bottle machine, bottle

cleaning machine, paper corking machine, corking machine, capping machine, sealing machine, labeling machine and other ancillary equipment to form a linkage production line. It is designed and manufactured in strict accordance with national GMP standards and process requirements.

TECHNICAL PARAMETER

MODEL	SPT-25
Capacity (bottles/min)	10-30
Bottle Size (ml)	15-120
Compressed Air Pressure (mpa)	0.4
Compressed Air Consumption (m ² /min)	0.002
Voltage	Customized
Power (kw)	0.55
Weight (kg)	280
Overall Dimension (mm)	1300×750×1500

The banner features a dark blue background with several white line-art icons related to medicine and healthcare. These include a blister pack of pills, a medicine bottle with a cross, a pill being split, a pill bottle, two pills, a syringe, and another blister pack.
