THP- 20 Flower Basket Tablet Press Machine

EQUIPMENT INTRODUCTION

THP-20 tablet press is suitable for pressing various materials such as disinfectants, bakelite powder, water purification salt blocks, sanitary products, industrial salt sheets, chemical powders, ceramics, chicken essence powder, etc. This equipment is also suitable for pressing and forming various powders. This tablet press has high precision, stable tablet pressing, reliable performance, and high yield, making it the best choice for customers to press corrosive materials such as disinfectants, water purification salt blocks, industrial salt tablets, and bath salts.

TECHNICAL PARAMETER

MODEL	THP-20
Working Pressure(T)	20
Maximum stroke(mm)	100
Charging height(mm)	40
Maximum diameter of lower mold(mm)	40
Production times per minute(times/min)	25
Product error	±0.1
Motor power(kw)	4
Overall dimension(mm)	800*900*1950
Equipment weight(T)	1.5
