YS-SP200 Horizontal Bag Pellet Machine

Machine performance and characteristics

1. Suitable for measuring packaging of particles, powders, liquids, sauces and other items in the food industry.
2. The packaging process is fully automated and does not require manual operation. Different cutting structures can be selected according to the properties of the filling material.
3. Adopting touch screen operation, PLC control, automatic compensation for sealing temperature, precise temperature control, and beautiful and elegant sealing.
4. Packaging material: PE composite film, such as pure aluminum, aluminum plated prefabricated bags, etc.

Technical Parameter

Model	YS-SP200
Measuring range	200-1000g
Prefabricated bag (maximum)	(L) 280mm (W) 200mm
Packaging speed	15 - 25bags / min
External dimensions	1091×926×1343 mm
Whole machine weight	365 kg
Total power	AC220V / 50 - 60Hz / 2kw

Configuration List

No.	Name	Specification and model
1	Servo Motor	Ri Ding
2	Touch Screen	Fanyi
3	Plc	Yutian Diantong
4	Temperature Control Meter	Huibang
5	Solid State Relay	Meiger Zhite
6	Intermediate Relay	schneider
7	Switch Power Supply	DELTA
8	Air Switch	Tianzheng
9	Key	chint
10	Film Pulling Motor	Lei Sai
11	Cylinder	AirTAC

The banner features a dark blue background with several white line-art icons related to medicine and healthcare. These include a blister pack of pills, a pill bottle with a cross, two crossed capsules, a single capsule, two overlapping tablets, a syringe, and another blister pack.
